For Immediate Release

ARMOUR STEEL SUPPLY JOINS ROBERTSON BUILDING SYSTEMS BUILDER NETWORK

November 23, 2011

Hamilton, Ontario - Armour Steel Supply Ltd. is pleased to announce it has been appointed a Robertson Building Systems (RBS) Authorized Builder. RBS is Canada's leading manufacturer of metal building systems for the industrial, commercial, warehouse, community, and agricultural markets, and is a member of NCI Building Systems, Inc., one of the largest integrated manufacturers and marketers of metal coil coating solutions, metal components and custom metal building systems for the non-residential construction industry in North America.

As an authorized RBS Builder, Armour Steel Supply offers its customers a wide array of engineered metal building solutions that incorporate the catalogue of Robertson's innovative, certified products such as the versatile Robertson Long Bay[®] System, which offer the longest column-free space in the industry.

Armour Steel's partnership with Robertson is an extension of Armour Steel's **ONE SOURCE** customer-centered business approach. **ONE SOURCE** greatly simplifies the entire subcontracted steel portion of your building project, offering a single source for

- **Pre-Engineered Metal Building Design/Build Solutions**
- **Structural Steel Fabrication and Customization Services**
- **Engineered Cold Formed Steel Truss, Wall Panel and Floor Systems**
- **Supply of Structural Steel, Tube, Rebar and Mesh**
- **On-Site Erection Services**

Please visit www.canadianmetalbuilding.com for more details.
